ABSTRACT.

[Pension—Commutation— Raghavendra Rao MRRy. A., retired Head clerk, Talk Board, Adoni. —Medical examination.]

MRRy. A. Raghavendra Rao is informed that his age next birthday being taken to be 49 years the capitalized value of (Rs. 8/——) of his pension will amount to about Rs. 1,243/——, the amount may be less if the medical certificate directs any addition to his age. Furthermore the table of present values on the basis of which the amount has been calculated is subject to alteration at any time without notice and consequently the amount calculated is liable to revision. If he wishes to commute his pension on these terms, he should appear before the D. M. O. Bellary to be examined before 5 — 2 — 1937.

2. The Medical Officer should subject the pensioner (whose identification marks are given in the application for commutation) to a strict medical examination, requiring him to give such information as to his health and habits as is usually supplied by persons proposing to assure their lives in Assurance companies and should report in the form prescribed in G.O. No. 348, Finance (Pension), dated the 1st June 1934. The report in duplicate with the application for commutation should be sent confidentially by the Medical Officer to the Secretary to the Standing Medical Board, Madras.

3. The Medical Officer is requested to return the commutation papers to Government if the applicant fails to appear for medical examination within the time specified in paragraph 1 above.

The identification marks given by the Dt.Medical Officer Bellary are present on A.Raghavendra Rao who appeared before me on 21-4-37. His height also corresponds with that given by the District Medical Officer. Apparently the former marks have disappeared from natural causes. The District Medical Officer's report may, therefore be accepted as applying to A.Raghavendra Rao. The connected records are resubmitted.

Statement of A. Raghavendra Rao.
Clerk, District Board Office Bellary.
Dated 19-4-37

I started service in the Taluk Board Office, Adoni on 13-6-1913. A service Register was then opened and I was examined by Dr Ramaya Kodi Venkatachalam then assistant Surgeon after I was confirmed. It was in the same year 1913. The identification marks noted in my Service Register were (1) an old scar about 2" long and ¼ inch broad across the inner surface of the left knee and (2) a circular scar about the size of a two anna piece over the front of the left knee. Probably owing to age, these scars are not-Plainly visible now. These same marks were noted in my Commutation application. At the time of examination by the Distt Bellary he remarked that these marks are not-to be seen and said that he would note down two separate identification marks. The old marks were noted nearly 24 years ago. I am now not-able to say they these marks are not-plainly visible now.

I shall appear before the Collector on 21-4-37 at 10.30 a.m. as directed

Resubmitted.

The applicant was examined by me and the statement recorded is enclosed.

On the two identification marks as described in the Commitment application, traces of the first are to be seen faintly on the inner aspect. A faint and dirty mark is also to be seen below the left knee cap. Probably the answers the second mark noted. Hereto. Any how as these marks are not clearly visible, the District Medical Officer has furnished fresh marks and these have also been verified by me. Instead of one mole 2" in front of the right ear, there are two more faint ones also by the side of it. The applicant is unable to explain why the old marks have become faded. Probably on account of a lapse of about 29 years from the date of ~~the~~ noting the old marks. they have become faint.

The applicant has been directed to appear before the Collector of Bellary at 10.30 a.m. on 21-4-37
